- **\$25 - \$29 per person**
- Bowling: **\$25 per person** (\$100 per team due each week)
 - o If only three people show up, it still costs \$100 for the team
 - You will be given a score of 75 for any bowler who isn't present (the "Blind")
 - o Fees should be paid on arrival when checking in at the windows:
 - Please let us know at check-in:
 - If your company is sponsoring you
 - If you require a receipt for reimbursement

- Cash is the preferred payment method
- Cards can be used if sponsoring your team weekly or in advance
- Online payment, with receipt confirmation

Lane Assignments:

- Each team will be assigned to a lane
- Your opponent team will be on the next lane
 - o Example: Team 1 will be on lane 9, Team 2 will be on lane 10
 - o This will allow for more competitive experience
 - o **Note: this is the same as last year**

League Rules:

- Once your organization or a team starts bowling, you are obligated to complete the league or complete full payment for the 8-week period
 - o A signed agreement will be required for each team prior to the start of the league
- Payments for the league should be made by week 1 of the league at the latest, unless you've informed the committee that your team will be paying weekly ahead of time
- The league will be handicap based
 - o Handicap is an additional score added to allow a competitive advantage for all bowlers
 - o All bowlers will start with the same handicap, regardless of last year's performance
 - $200 - \text{average score} * 80\% = \text{handicap}$
 - E.g. $200 - 98 * 80\% = 81.6$ (82)
 - If the bowler bowls 125, the handicap (82) is added, making their total score for that game 206.6 (207).
- Team Position:
 - o Determined by the team's total pins
 - Bowling three games each night, including their total handicap
